General Many wherries on census night could have been on passage or moored well away from the routes of enumerators as they also could have been when each Household's form was distributed in the days prior to census night and collected afterwards. Wherry names are rarely recorded. Answers (rare) to the question 'Whether blind or deaf and dumb' are included in the 'Comments' column below. Only 15 'wherryman' were noted in Norfolk and one in Suffolk. I have not distinguished between the descriptions 'waterman' and 'water man' etc.

Occupations Robert Simper says, in *Norfolk Rivers and Harbours* (1996), 'In recent times the crew of a wherry have been called skipper and mate, but the old practice was to call them wherryman and waterman.' From my research I would say that 'waterman' could include both skipper and mate. The search terms 'waterman', 'boatman', etc are **not proof of connection with wherries**, but have been included where place of residence, family name etc might indicate it. I suspect 'waterman' covers a multitude of sins. I have ignored those living in King's Lynn, Downham Market, Ipswich, Sudbury etc, but included those in parishes along the River Blyth (see list at end). Some boatmen have turned out to be sailors, but I have only excluded these if I am sure. Where a son is shown as following his father as a waterman etc, but both were at home or on board on census night, I have made separate entries for each. One enumerator felt obliged to describe each member of a waterman's family as, for example, 'waterman's son' when the boy referred to was only one year old. I have not listed these separately unless the offspring was male and old enough to take charge of a wherry - a difficult age to define. Probably a lot of the sail makers listed in Great Yarmouth or Lowestoft never made a wherry sail in their lives but it's impossible to tell, so I've included most of them.

Ages Unlike the 1841 census the age is noted as it was given, however people did not always get it right!

Mistakes Handwriting was different in 1861, varied enormously from one enumerator to another, and is often difficult to read. There were mistakes made transferring information from the household forms (destroyed after being copied) to the enumerators' forms (available on line); there were many mistakes made in indexing for the digitised version, {corrected by me} and there are sure to have been mistakes made by me, both reading and typing. Corrections and omissions please to alan@quanting.co.uk Thanks if you do.

Relationships For those reading this in the distant future there were only 2 genders recognised at this time.

Address For information about Norwich staithes and parishes see note at bottom of '1841 On boats' document. All places mentioned were in Norfolk at the time unless otherwise stated. Southtown was added to Yarmouth in 1681, Gorleston became part of Norfolk in 1835, though some addresses in 1851 indicated Suffolk, and the border was moved south to add Fritton, Belton, Burgh Castle and Hopton only in 1974.

Birthplaces Often only a village is given, as Benjamin Annison; sometimes great detail, as William Alden

Please **do not** take this list as exhaustive or infallible.

Asterisks

* Arnold, Day - the surname is Arnold. Cannot trace father as licensee in any of Sutton's 3 pubs on norfolkpubs.co.uk. Possibly the *Windmill* as no licensee given in 1861.

* Dunn, Jephtha - the ninth Judge of Israel, spelt Jephthah in Judges 11:1-40

* Gostling, Barzillai appears in 1841 as Barzilla Gosling; in 1851 as Baverley Gosling; in 1861 as Bair Maiz Clarkes and in 1871 as Barzillai Gostling. Tricky.

Barzillai - Hebrew: 'man of iron' or 'herdsman'. A friend of King David. II Samuel 17:27; 19:32 etc

* Pike, Elizabeth, wife of James. 1861 has 'Allen, wife, age unclear but poss 68, bn Gunthorpe'; 1851 has 'Ann, wife, 58, bn Houghton'; 1841 has 'Eliz, wife, 45, bn Norfolk'. Take your pike!

* Shepherd, Stephen. 'BLM' is possibly the initials of occupations in one classification (Bargemen, Lightermen, Mariners) but I have been unable to confirm this.

* Smith, Eliza, wife of Robert. Given as Uriah in 1851 and 1861, but Elizah in 1871. Uriah is a male Hebrew name; 2 Samuel xi. 3

* Thain, Dionysius - clearly a case of a double entry, with the Thains having sailed from Yarmouth to Dilham between being noted in both places by different enumerators.

On boats on Census night, Sunday April 7th 1861

(?) = uncertainty (13) = age { } as detail appears incorrectly in digital version

It is not always possible to tell if a person was on a boat as addresses were not as detailed as we are used to. For instance 'North Quay, Gt Yarmouth' could mean someone living in a house there, living on a boat there or someone on board on census night. The enumerators should have used a special Form for those on boats or ships, but often they didn't.

All the people below also appear on the main 1891 list of wherryman etc.

It is reasonable to assume that a woman on board, possibly sharing a surname and having a similar age, was the wherryman's wife, married or not. I have not checked.
