General Many wherries on census night could have been on passage or moored well away from the routes of enumerators as they also could have been when each Household's form was distributed in the days prior to census night and collected afterwards. Wherry names are rarely recorded. Answers (rare) to the question 'Whether blind or deaf and dumb' are included in the 'Comments' column below. Only 15 'wherrymen' were noted in Norfolk and one in Suffolk. I have not distinguished between the descriptions 'waterman' and 'water man' etc.

Occupations In most cases the enumerator's written description 'wherryman' has been amended to 'waterman' later, but I have used the former if given. The search terms 'waterman', 'boatman', etc are **not proof of connection with wherries**, but have been included where place of residence, family name etc might indicate it. I suspect 'waterman' covers a multitude of sins. I have ignored those living in King's Lynn, Downham Market, Ipswich, Sudbury etc, but included those in parishes along the River Blyth (see list at end). Some boatmen have turned out to be sailors, but I have only excluded these if I am sure. Where a son is shown as following his father as a waterman etc, but both were at home or on board on census night, I have made separate entries for each. Probably a lot of the sail makers listed in Great Yarmouth or Lowestoft never made a wherry sail in their lives but it's impossible to tell, so I've included most of them.

Mistakes Handwriting was different in 1881, varied enormously from one enumerator to another, and is often difficult to read. There were mistakes made transferring information from the household forms (destroyed after being copied) to the enumerators' forms (available on line); there were many mistakes made in indexing for the digitised version, {corrected by me} and there are sure to have been mistakes made by me, both reading and typping. Corrections and omissions please to alan@quanting.co.uk Thanks if you do.

Relationships For those reading this in the distant future there were only 2 genders recognised at this time. Beware step-children having same family name as both parents.

Address For information about Norwich staithes and parishes see note at bottom of '1841 On boats' document. All places mentioned were in Norfolk at the time unless otherwise stated. Southtown was added to Yarmouth in 1681, Gorleston became part of Norfolk in 1835, though some addresses in 1851 indicated Suffolk. Runham was added in 1890, and the border was moved south to add Fritton, Belton, Burgh Castle and Hopton only in 1974.

Birthplaces Usually only a village or parish is given but I have included more detail where given.

Please **do not** take this list as exhaustive or infallible.

Notes

- ¹ BoS - various people - This seems to have been added to the Returns later, sometimes as 'Boat on Sea', so I think it is a Category of Occupation, which included wherrymen. Unfortunately it also seems to include fishermen and other maritime occupations so it has not been easy to decide whether to include someone or not. I've been influenced by surname, place of birth, residence, fathers' and brothers' occupations, other census details etc. Not very scientific but all I could do. There are many more 'BoS' instances than indicated above.
- ² This remarkable page lists 15 sailing wherries at wharfs on the Wensum in Norwich along with 1 steam wherry, 1 steam dredger and a Billy Boy (see victorianweb.org/technology/ships/37). Unfortunately no wherry names are recorded and the Enumerator entered them all in the parish of St Ethelred wherever they were on the Wensum between St Anne's Lane and Carrow Bridge. On the next page 2 wherries (*Harriett* and *Hope*) are listed as 'Custom Returns' which might mean boats that were known to have been at the wharf Sunday night but sailed early, before the Enumerator got there.
- ³ Holmes, Samuel - The Enumerator's spelling is occasionally wrong, though I can't find Samuel on other censuses
- ⁴ Emily / Pemly Bygrave - Mother is clearly Emily on 1871; mother and daughter are clearly Pemly on 1881
- ⁵ Robert Burleigh - owned 3 wherries on the River Blyth about 1850. *Black Sailed Traders*, p114
- ⁶ William Appleby - Previous entry is Hampshire Hog Yard
- ⁷ On Catherine's entry is written 'husband temporarily absent. Head, waterman, bn Thetford'. No proven connection between Catherine and H Ives on the *Fortitude* but certainly a possible one.
- ⁸ Abitha is a Hindi female name; he is Abithan in 1891

On boats on Census night, Sunday April 3rd 1881

(?) = uncertainty (13) = age { } as detail appears incorrectly in digital version

It is not always possible to tell if a person was on a boat as addresses were not as detailed as we are used to. For instance 'North Quay, Gt Yarmouth' could mean someone living in a house there, living on a boat there or someone on board on census night. The enumerators should have used a special Form for those on boats or ships, but often they didn't.

All the people below also appear on the main 1881 list of wherrymen etc.

It is reasonable to assume that a woman on board, possibly sharing a surname and having a similar age, was the wherryman's wife, married or not. I have not checked.
