General

Many wherries could have been on passage or moored well away from the routes of enumerators as they also could have been when each Household's form was distributed in the days prior to census night and collected afterwards. Wherry names are sometimes recorded. Very rarely a wherryman will appear twice on the same census, usually because his wife included him when filling in the form at home, and he filled it in himself while on a wherry at a quay somewhere else.

Answers (rare) to the question 'Whether blind or deaf and dumb' are included in the 'Comments' column. Married couples aboard are rare.

In Institutions like Lunatic Asylums, and Norwich Castle Gaol, inmates / prisoners are recorded only by their initials, so they are listed at the beginning of their surname's initial letter.

Occupations

Robert Simper says, in *Norfolk Rivers and Harbours* (1996), 'In recent times the crew of a wherry have been called skipper and mate, but the old practice was to call them wherryman and waterman.' Here they are sometimes called waterman but also wherryman's assistant, mate, man, boy etc.

The search terms 'waterman', 'boatman', etc are **not proof of connection with wherries**, but have been included where place of residence, family name etc might indicate it. I suspect 'waterman' covers a multitude of sins. I have ignored those living in King's Lynn, Downham Market, Ipswich etc, but included those in parishes along the River Blyth.

Where a son is shown as following his father as a waterman etc, but both were at home or on board on census night, I have made separate entries for each..

Generally there is no occupation given for wives but I have included one where given. I suspect waterman's wife was a pretty full-time job.

Lightermen in Yarmouth could be working for the Trinity Brethren [Trinity House]. Boatmen on the coast could be working for the Coast Guard or shown as working at sea. In all cases I have only omitted them if it is clear they are not wherryman.

Each 'water man' has been entered as 'waterman'; each 'boat wright' as 'boatwright etc (ie no gap), & etc.

Many boat builders seem to have been described as shipwrights and I may have omitted some wherry builders as a result if I could not find them as boat builders on another census.

'Boatman (pleasure)' - these are not included if in Yarmouth as they are probably not pleasure wherry skippers but more likely to be taking trippers to Scroby Sands or something.

Probably a lot of the sail makers listed in Great Yarmouth or Lowestoft never made a wherry sail in their lives but it's impossible to tell, so I've excluded most of them.

Emp(loyment) column: 1 = employer, 2 = employed, 3 = neither

Ages

Noted by enumerator as given. There are often discrepancies between censuses.

Mistakes

Handwriting was different in 1891, varied enormously from one enumerator to another, and is often difficult to read. There were mistakes made transferring information from the household forms (destroyed after being copied) to the enumerators' forms (available on line); there were many mistakes made when indexing for the digitised version, and there are sure to have been mistakes made by me, both reading and typing. Corrections and omissions please to alan@quanting.co.uk Thanks if you do.

Relationships For those reading this in the distant future there were only 2 genders recognised at this time.

Address

For information about Norwich staithes and parishes see note at bottom of '1841 On boats' document.

All places mentioned in the table below were in Norfolk at the time unless otherwise stated. Southtown was added to Yarmouth in 1681, Gorleston to Norfolk in 1835, though some addresses in 1891 indicated Suffolk, and the border was moved south to add Fritton, Belton, Burgh Castle and Hopton in 1974. Parishes along the River Blyth are indicated * in the Abode column.

All Great Yarmouth addresses are in St Nicholas parish unless shown otherwise (usually St Andrew in Southtown).

For excellent detail on Norfolk pubs see norfolkpubs.co.uk

'Living with parents' in Comments column may include a step-parent. Beware!

Birthplaces Often only a village is given, as Herbert Kemp: sometimes more detail, as Benjamin Bessey.

On boats on Census night, Sunday April 5th 1891

(?) = uncertainty

(13) = age

{ } as detail appears incorrectly in digital version

It is not always possible to tell if a person was on a boat as addresses were not as detailed as we are used to. For instance 'North Quay, Gt Yarmouth' could mean someone living in a house there, living on a boat there or someone on board on census night. The enumerators should have used a special Form for those on boats or ships, but often they didn't.

All the people below also appear on the main 1891 list of wherryman etc.

It is reasonable to assume that a woman on board, possibly sharing a surname and having a similar age, was the wherryman's wife, married or not. I have not checked.
